## Synopsis

If you're wondering what this largest organ in Asia can do, the concert is just what you're looking for!

With their different timbres, the organ, harp, and double bass will present arrangements of French composer SAINT-SAËNS' classic *The Carnival of the Animals* in the Concert Hall.

We will provide easily understood explanations and a real-time video projection of the organists' hands and feet on this trip into an animal revelry that offers a close-up look at Asia's largest pipe organ.
